## Water Management Solutions for a Changing Climate

This December in San Diego, California, join your colleagues for the most important water and climate event yet: The 2015 International Water & Climate Forum. Focusing on how water utilities and communities are adapting to climate change and becoming more resilient, the Forum will include presentations, case studies, group discussions and more. Below are just some of the speakers and topics to be featured at the Forum.

### COMMUNITY WATER RESILIENCE

Case studies from Copenhagen, Rotterdam, and Calgary

### DECISION-MAKING UNDER UNCERTAINTY

Presentations from Denver Water, Cranfield University, and UMass-Amherst

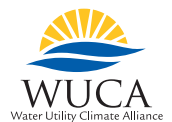

### DROUGHT PLANNING APPROACHES

Discussions with utility leaders from San Diego, Greater Melbourne and Los Angeles

### INFRASTRUCTURE, URBAN DESIGN & INNOVATION

Presentations from utilities in New Orleans and Singapore and the Research Center for Water Sensitive Cities

# Who Should Attend?

- Water, wastewater and stormwater utility leaders and managers
- Government representatives and policy makers
- Scientists and researchers
