KYLE W. DANISH PARTNER

Professional Background

Kyle Danish is a leader in the firm's [Energy Transition](#) practice and is a globally recognized legal and policy expert on energy projects; the energy transition; climate change policy, carbon markets and green finance; government relations; and environmental regulation. He has over two decades of experience assisting clients in navigating complex issues at the intersection of business and government policy.

Kyle has been ranked as a leading practitioner by *Chambers USA*, *Chambers Global*, *the International Who's Who of Environmental Lawyers*, *Lawdragon*, and *Best Lawyers in America*.

Dr. Kyle Danish and Dr. P. Libus, "Will Risk Aversion Avert the Energy Transition? Reforming NRC Policy for a New Age of Advanced Reactors", *ELR – The Environmental Law Reporter* (forthcoming March 2024) (with A. Stein and P. Libus).

He is a Senior Associate (Non-Resident) in the [Center for Strategic and International Studies'](#) Energy and National Security Program. He is also on the Editorial Board of the [Carbon & Climate Law Review](#).

Kyle is a Member of the Board of the [Montgomery County Green Bank](#), which partners with the private sector to finance clean energy, energy efficiency, and resilience projects in the most populous county in Maryland.

Kyle serves as a member of Van Ness Feldman's Executive Committee.

Representative Experience

- Providing counsel to the developer of a clean hydrogen production project.
- Providing counsel on policy, permitting, carbon credit, and siting issues to a developer of carbon dioxide removal projects.
- Advising multiple clients on federal funding opportunities arising from the Inflation Reduction Act, including tax credits, grants, and government procurement.
- Acting as Special Carbon Counsel for an investment bank that has developed a carbon fund that finances afforestation projects throughout South America to generate voluntary carbon credits.
- Advising an energy company on disclosure under the Task Force on Climate-Related Financial Disclosures (TCFD) framework, including analyzing scenarios for future climate policies and related impacts on Scope 1, Scope 2, and Scope 3 reporting.
- Advising multiple clients on federal methane policies, including the methane fee established under the Inflation Reduction Act and the Environmental Protection Agency's proposed methane regulations.
- Advising an electric power company on the Environmental Protection Agency's development of greenhouse gas performance standards for fossil fuel-fired power plants.
- Advising companies on federal funding and permitting issues related to critical minerals and rare earth elements projects.
- Advising an energy company on permitting reform legislation.

- Representing a coalition of rural electric power co-operatives in a lawsuit against a generation owner over the allocation of charges for environmental compliance.
- Advising an energy company on opportunities to generate RINs and e-RINs under the Renewable Fuel Standard.
- Commissioned by two think tanks to develop policy and legislative concepts for reform of Nuclear Regulatory Commission policies for licensing advanced nuclear reactors.
