KYLE W. DANISH

PARTNER

Professional Background

Kyle Danish is a leader in the firm's [Energy Transition](#) practice and is a globally recognized legal and policy expert on energy projects; the energy transition; climate change policy, carbon markets and green finance; government relations; and environmental regulation. He has over two decades of experience assisting clients in navigating complex issues at the intersection of business and government policy.

Kyle has been ranked as a leading practitioner by *Chambers USA*, *Chambers Global*, *the International Who's Who of Environmental Lawyers*, *Lawdragon*, and *Best Lawyers in America*. *Chambers Global* has rated Kyle among the top 10 climate change lawyers worldwide.

Kyle regularly publishes articles and white papers on legal and policy issues, including recent publications on [oil and gas sector methane policies](#); reforming Nuclear Regulatory Commission policies for licensing [advanced nuclear reactors](#), possible future policies for [exports of Liquefied Natural Gas](#), and options for designing tax credits for [carbon removal projects](#).

He is a Senior Associate (Non-Resident) in the [Center for Strategic and International Studies'](#) Energy and National Security Program. He is also on the Editorial Board of the [Carbon & Climate Law Review](#).

Kyle is a Member of the Board of the [Montgomery County Green Bank](#), which partners with the private sector to finance clean energy, energy efficiency, and resilience projects.

Kyle serves as a member of Van Ness Feldman's Executive Committee.

Representative Experience

- Advising multiple clients on differentiated gas and federal methane policies for the oil and gas sector, including Environmental Protection Agency's methane regulations.
- Advising an electric power company on the Environmental Protection Agency's development of greenhouse gas performance standards for fossil fuel-fired power plants.
- Advising an energy company on permitting reform legislation.
- Advising an energy company on opportunities to generate RINs and e-RINs under the Renewable Fuel Standard.
- Commissioned by two think tanks to develop policy and legislative concepts for reform of Nuclear Regulatory Commission policies for licensing advanced nuclear reactors.
- Advising the [Clean Hydrogen Future Coalition](#) on implications of Environmental Protection Agency regulations for clean hydrogen projects.
- Providing counsel on policy, permitting, carbon credits, and siting issues to a developer of carbon dioxide removal projects.
- Advising multiple clients on federal funding opportunities, including from tax credits, grants, and government procurement.
- Acting as Special Carbon Counsel for an investment bank that has developed a carbon fund that finances afforestation projects throughout South America to generate voluntary carbon credits.

Government Service

Virginia Secretary of Natural Resources

Special Assistant to the Secretary, 1990-1992
